Four Seasons does not warrant the work of any installation contractor. Detailed installation manuals are provided with each Four Seasons Sunrooms product and additional copies will be provided upon request. Four Seasons authorized Franchises and Dealers are independent businesses and provide their own warranties for workmanship and installation.

This warranty is conditional on the presentation of proof of the date of purchase of the product which may be satisfied by the completion and return of the Warranty Registration Card within 90 days of the date of the delivery of the product, and payment of the Four Seasons Sunrooms product in full.

In installations greater than 4,000 feet above sea level, special pressure equalization procedures for insulating glass are required. These procedures may negatively impact the performance values of the panel. Failure to comply with these procedures voids this Warranty on insulating glass panels.

The Homeowner is required to return any defective part or component to the manufacturer or distribution facility designated by Four Seasons packaged in compliance with stated requirements. With respect to claims that involve glass panels, we recommend that approval of the local dealer be required before any removal of allegedly defective product occurs.

OTHER PRODUCT WARRANTY PROVISIONS

Four Seasons reserves the right to discontinue or change any Four Seasons product. If the part or component of the product originally installed is not available, and Four Seasons determines to make replacement, Four Seasons will have the right to substitute a compatible part or component.

This Limited Product Warranty covers only the specific manufacturing defects as specified herein. Four Seasons does not warrant installation, nor defect or damage caused by installation. This Warranty does not cover any other damages or material failure including, but not limited to, normal weathering of the product, staining or scratching of the glass surface, oxidation, accidental or intentional damage, damage from fire, flood, windblown objects, hail, lightning, earthquake or other Acts of God, chemical pollutants, chlorine, mildew, negligent maintenance, fading, misuse or abuse, shifting and settling of building or structural defects, or stresses resulting from localized heat sources which cause excessive temperature differentials over glass surfaces or edges or other room components, use of insulated shades during daylight hours, high humidity conditions or any other causes or occurrences beyond Four Seasons' control. Color variances, knots, checking or minor cracks that do not affect structural integrity are natural characteristics of wood products, and are not considered to be a defect. This Warranty does not apply if non-wood parts are painted, varnished or coated with any other substance, or if parts are tampered with in any manner.

Replacement parts or components furnished by Four Seasons under this Warranty will have the standard color and or specifications available at that time. A color variance may occur between the new replacement part or component in comparison to the original product, part or component, and would not be indicative of a defect in the part or component.

Normal weathering may cause any surface to oxidize, chalk, accumulate surface dirt, stains, etc. due to varying exposures, such as sunlight, pollution and atmospheric conditions, and would not be indicative of a defect in the part or component. The geographic location, the quality of the atmosphere and other factors over which Four Seasons has no control, may contribute to the severity of these conditions.

Condensation on the product may occur as the natural result of humidity inside or outside the house or building area and changes in the interior/exterior temperatures, and does not indicate a defect in the product. If a spa or tub is used in the product it should be properly ventilated, and covered at night. This Warranty does not cover condensation, nor frost or freezing from condensation on glass panels or other product components.

This Warranty does not include any labor costs or ancillary materials. Four Seasons will not be responsible for any costs incurred in the removal or replacement, installation or reinstallation of any part or component furnished by Four Seasons under this Warranty. Four Seasons reserves the right to determine, in its sole discretion, whether or not a defect exists for which it may be responsible under this Warranty.

This Warranty specifically excludes individual Four Seasons Sunrooms component parts or products used in applications outside of a totally designed Four Seasons Sunrooms product. Use of components not manufactured by Four Seasons voids this Warranty. Failure to install Four Seasons Sunrooms
